

MATRIX POWER & AUTOMATION

ELECTRICAL CONSULTING | PANEL MANUFACTURING
PANEL ACCESSORIES | PROCESS AUTOMATION | TURNKEY SOLUTIONS

About Us

Matrix Power & Automation is specialized in Industrial Automation & Electrical Solutions. Founded in the year 2011, we, are counted amongst the most trusted companies of Haryana, India. Since our inception, we have been working as a credible Manufacturer and Supplier of electrical goods.

We offer wide range of Cost Effective Services (Repairing, AMC, and Testing) in the field of Electrical Engineering, Plant Intelligence and Industrial Automation. The Material used in the manufacturing of LT panel is of optimum quality that ensures high durability and resistivity to various factors supporting corrosion. Moreover, the use of advanced techniques in the manufacturing of the LT panel makes them a perfect match to the national as well as international standards.

OUR VISION

We believe in the policy: "Once a Customer, Always a Customer" and hence provides the best quality.

OUR MISSION

We actually want to be the customer's "First Choice" supplier in "World-Class" industrial automation products & services in our marketplace.

OUR VALUES

We Strongly believe in high moral ethics to maintain Quality of Products with a Competitive pricing. We are Committed to achieve desired goals.

Valuable Clients

ELECTRICAL PANELS' MANUFACTURING & AUTOMATION

Matrix Power & Automation is a well-known manufacturer, supplier, installer, and electrical contractor of long-lasting and multipurpose panel boards, Industrial Panel Boards and Control Panel boards. These Electrical Panel Boards are manufactured by using High Quality Enclosures to make it more useful and quality for customers. Our company offers a wide range of Electrical Control Panels to cater the specific needs and requirements of clients these Industrial Panel Board are manufactured as per the IS standards & give an outstanding performance to the clients.

we can provide following panels for all electrical needs....

- Low Voltage Panels
- High Voltage Panels
- Distribution Panels
- AMF Panels
- Synchronization Panels
- Capacitor Panels
- MCC Panels
- DG Panels
- APFC Panels
- PLC Panels

TESTING LAB

Skilled wireman and test technicians manufacture and test all control panels.

**High voltage
breakdown testing**

Megger testing

PRODUCTS EXPERIENCED

Programmable Logic Controllers (PLC)

AC Drives

Switch Gears

**Motors, Sensors, Cables, HMI, DG Sets,
Cable Tray / Ladder, LED Indicators, Toggle Switch**

‘ Sale is not end of our business
It's start of our responsibility ,

Fabrication of Panels

We have a clean and well maintained workshop for the manufacturing of the panels. The experienced staff along with a team of trained labours does their work in the dedicated sections. The particular machines used in the workshop are - Shearing machine, Bending Machine, Power Press Machine, Crimping Machine, Welding set etc...
